

A facility permitted for a youth camp with Board of Health approval at the center of the Berkshires.

Another wonderful stop for anyone who loves the Berkshires...

Starting a camp for your students becomes as easy as getting a few kids together and playing some music or singing some songs...

A staffed director on campus at all times to take the stress out of your recreational activities.

Teachers and educators, you won't need to worry about anything but your classes; we will supplement the recreational activities like swimming, ropes courses, tennis, hiking, horseback riding, etc.

Stay tuned for the exact location, coming soon...
